

Plantable Tags

Cod.ETAP

Plantable Tags are special labels with seeds that can be planted and grown; in fact, they are 100% biodegradable. Made of a special plantable paper containing non-GMO seeds, they germinate in contact with water and soil. Growing these innovative plantable labels is very easy. When the label has done its job, instead of throwing it in the bin, just plant it in a pot, ensuring it has light and water. In a few weeks the first seedlings will sprout!

Delivery Time

15 - 20 days
